

Brighton Public Golf Course

Changes to Golf Course Carpark

4th January 2021

From January 5th there will be changes to operating procedures in the Brighton Golf Course car park, the Department of Health & Human Services will be setting up a COVID-19 testing centre in the area. The site is seen as a temporary site and is important to support the pandemic response. Early indications are that this will be in place for 1-2 weeks- although pending demand this is subject to change.

Importantly the Golf Course will still be open with normal operations.

From 5am tomorrow traffic management will be onsite to block off the entry to the golf course– they will divert traffic to the adjacent parking area at Brighton Secondary College. Traffic controllers will be on Dendy St stopping traffic to allow patrons to safely cross the road. See traffic plan here →

The Brighton Golf Club located at 99 Glencairn Ave, Brighton East will be open and used as an overflow car park if required.

We will keep members and guests updated as more information comes to hand. Thanks for your understanding and patience as we importantly help assist with Victoria's pandemic response.

Where possible we ask you to arrive a little earlier for your round.
